* indicates the importance:

***p. 21:** the line below formula (2.2), replace f_θ by f .

****p. 21₄:** replace “lim sup” by “lim inf”.

****p. 21₃:** replace “lim sup” by “lim inf”.

p. 24²: ignore , in “Theorem, 4.9”.

****p. 28:** In Corollary 4.1 an assumption of positivity should be stated explicitly, for example by letting its first line begin by

“If $\sum_{j>J} |a_j| < \infty$ and $|a_j| \geq |a_{j+1}| > 0$ for all $j > J, \dots$ ”.
