

**Rettelse!** Formuleringen af kriteriet **i.** i Theorem 11.11 i [PF] er **forkert**. Den korrekte formulering er følgende.

- i.** The mapping  $F: A \rightarrow \mathbf{R}^n$  is continuous at the point  $\mathbf{u}$ ; that is, for **every** sequence  $\{\mathbf{u}_k\}$  in  $A$ ,

$$\lim_{k \rightarrow \infty} \text{dist}(F(\mathbf{u}_k), F(\mathbf{u})) = 0, \quad \text{if } \lim_{k \rightarrow \infty} \text{dist}(\mathbf{u}_k, \mathbf{u}) = 0.$$
