

Curriculum Vitae: Olav Geil

Last update: December 11, 2017

Personal information

Date of birth April 7, 1962
Position Professor with Special Responsibilities
Affiliation Department of Mathematical Sciences
Aalborg University
Email olav@math.aau.dk
Homepage people.math.aau.dk/~olav

Academic degrees

PhD in Mathematics, Aalborg University, May 17th, 2000.
MSc in Mathematics and Physics, Aalborg University, June 26th, 1996.

Employment

2014– Professor with Special Responsibilities, Dept. of Math. Sci., Aalborg University
2002–2014 Associate Professor, Dept. of Math. Sci., Aalborg University
1999–2002 Assistant Professor, Dept. of Math. Sci., Aalborg University

Research stays

Jaume I University, Castellon, Spain, 2016 (two weeks). / East China Normal University, Shanghai, China, 2013 (ten days). / Basel University, Basel, Switzerland, 2012 (one week). / East China Normal University, Shanghai, China, 2012 (ten days). / Tokyo Institute of Technology, 2006 (two weeks). / Technical University of Denmark, Lyngby, Denmark, 2000 (2 weeks). / Eindhoven University of Technology, Eindhoven, The Netherlands, 1998 (3 months). /

Grants

Grant holder and principal investigator for research project under DFF-FNU, “How secret is a secret?”, DFF-4002-00367, 2014–2017, (2.509.920 DKK.)

The Villum Foundation for Ryutaroh Matsumoto as Velux Visiting Professor, 2014, (201.300 DKK).

The Villum Foundation for Ryutaroh Matsumoto as Velux Visiting Professor, 2011, (285.000 DKK).

Management

Principal investigator for research project “How secret is a secret?”, 7 scientists, 2014–2017.

Chairman for the 1st year mathematics studies development project first.math, 2012–2016, (annual budget 7.500.000 DKK).

Participation in “Research Management Course”, Copenhagen Business School, 2016.

Publications

Orcid: 38 papers <http://orcid.org/0000-0002-9666-3399>
ResearcherID: 38 papers <http://www.researcherid.com/rid/F-4662-2011>
Scopus: 34 papers <https://www.scopus.com/authid/detail.uri?authorId=6602737792>

Citations

Google Scholar: 552 citations h-index 13 <https://scholar.google.dk/citations?user...>
ResearcherID: 210 citations h-index 9
Scopus: 233 citations h-index 10

Referee/Reviewer

Finite Fields and Their Applications; Designs, Codes and Cryptography; IEEE Transactions on Information Theory; Discrete Mathematics; Advances in Mathematics of Communications; Communications of the Korean Mathematical Society; Journal of Pure and Applied Algebra; Cryptography and Communications; Applicable Algebra in Engineering, Communication and Computing; Journal of Symbolic Computation; Mathematical Review/MathSciNet; various workshops and conferences

Talks

Invited: 28 Contributed: 13 (full list at the end of the document)

Organization of conferences/workshops

Dune workshop on secrets, Klitgaarden Skagen, October 2–4, 2017.

“Secrets”, Technical University of Denmark, November 14, 2016.

“Workshop on Applications of Algebraic Geometry in Secret Sharing and Coding Theory”, Aalborg University, June 30, 2014.

In collaboration with D. Ruano “4th AGINCC Workshop”, Skagen, Denmark, July 28–31, 2013.

In collaboration with T. Høholdt, Session “Coding Theory” at “European Mathematical Society Joint Mathematical Weekend”, University of Copenhagen, March 2, 2008.

“Mini Workshop on Error Correcting Codes and Network Coding”, Aalborg University, September 19, 2007.

In collaboration with L. D. Andersen, “8th Nordic Combinatorial Conference”, Aalborg University, October 20–22, 2004.

Program Committee Member

5th International Caste Meeting on Coding Theory and Applications (ICMCTA) 2017 / International Symposium on Network Coding (NetCod) 2014 / Workshop on Coding and Cryptography (WCC) 2013 / / Workshop on the Arithmetic of Finite Fields (WAIFI) 2012 / International Workshop on the Arithmetic of Finite Fields (WAIFI) 2010

Long-term guests

F. Hernando, Jaume I University, Spain, 2017 (1 month). / F. Özbudak, Middle East Technical University, Turkey, 2016 (1 month). / R. Pellikaan, Eindhoven University of Technology, The Netherlands, 2016 (2 weeks). / F. Hernando, Jaume I University, Spain, 2015 (1 month). / R. Pellikaan, Eindhoven University of Technology, The Netherlands, 2015 (2 weeks). / R. Matsumoto, Tokyo Institute of Technology, Japan, 2014 (3 months). / F. Hernando, Jaume I University, Spain, 2013 (1 month). / Y. Luo, Shanghai Jiao Tong University, China, 2013 (1 month). / R. Matsumoto, Tokyo Institute of Technology, Japan, 2011 (4.5 months). / C. Galindo, Jaume I University, Spain, 2010 (1 month). / R. Matsumoto, Tokyo Institute of Technology, Japan, 2006 (2 weeks) / M. Sala, University of Trento, Italy, 2006 (1 month). /

PhD students

Emircan Çelik (co-supervisor 2017–)

Umberto Martínez Peñas (2014–)

Stefano Martin (2011–2014)

Casper Thomsen (2007–2011)

Henning E. Andersen (informal co-supervisor 2002–2005)

Master students

Kasper Halbak Christensen (2017) / Louise Foshammer (2014) / Malte Neve-Græsbøl (2014) / Henning Thomsen (2012) / Maria Simonsen (2012) / Majken Svendsen (2012) / Claus Jensby Madsen (2010) / Thomas H. Skjærbæk (2010) / Nicola Machetti (2010) / Elisabeth Kuhr Rasmussen (2005) / Maria Sondrup Iversen (2004) / Jane Gravgård Knudsen (2004) / Henning E. Andersen (2001)

PhD courses given at foreign universities

5 hours course at “International School and Conference on Coding Theory”, CIMAT, Guanajuato, Mexico, November 28 – December 4, 2008.

In cooperation with Massimiliano Sala, “Summer Doctoral School 2009, Gröbner Bases, Geometric Codes and Order Domains”, University of Trento, June 8–13, 2009.

6 hours course at “Soria Summer School on Computational Mathematics”, University of Valladolid, July 12–16, 2010.

Participation in PhD committees

University of Trento (1 student). / Technical University of Denmark (chairman of 4 committees).

Teaching

PhD supervision course, AAU Learning Lab, 2015. / Teaching training course “Adjunkt-pædagogikum”, Pdagogisk Udviklingscenter, AAU, 2001–2002. / Since 1999 teaching at all levels from bachelor to PhD.

Current project participation

I am part of the project SECURE (Secure Estimation and Control Using Recursion and Encryption). This is a major Aalborg University interdisciplinary research project headed by Principal Investigator Rafael Wisniewski and running in the three years 2018-2020. The members are: Rafael Wisniewski, Tom N. Jensen, Mads G. Christensen, Maja H. Bruun, Astrid O. Andersen, Ignacio Cascudo and Olav Geil.

Together with Bettina Dahl Sndergaard (Principal Investigator) and Hans Hüttel we investigate how Problem Based Learning is and can be used in connection with the Mathematical studies at university level. Our project "PBL og matematik: Hvordan kan PBL fungere p universitetets grundfag?" runs in 2018. It received funding from Det Strategiske Uddannelsesrd, Aalborg University.

Publication list

Journal publications and articles in books

1. C. Galindo, O. Geil, F. Hernando, D. Ruano, "Improved constructions of nested code pairs," accepted for publication in *IEEE, Trans. Inform. Theory*, available from <https://arxiv.org/abs/1610.06363>, 2017, DOI: 10.1109/TIT.2017.2755682.

Talks and workshops

1. Contributed talk

5th International Castle Meeting on Coding Theory and Applications,
Vihula, Estonia, August 28-31, 2017

(Presenting joint work with Ferruh Özbudak)

"Bounding the minimum distance of affine variety codes using symbolic computations of footprints."

2. Contributed talk

5th International Castle Meeting on Coding Theory and Applications,
Vihula, Estonia, August 28-31, 2017

(Presenting joint work with Daniel E. Lucani)

"Random network coding over composite fields."

3. Invited talk

SIAM Conference on Applied Algebraic Geometry
Session MS86: *Coding Theory.*

Georgia Institute of Technology, USA, July 31 - August 4, 2017

(Presenting joint work with Carlos Galindo, Fernando Hernando and Diego Ruano)

"Improved construction of nested code pairs."

4. Invited talk

Meeting of the Catalan, Spanish, Swedish Math Societies

Session 5: *Numerical Semigroups and Applications.*

Umeå University, Sweden, June 12-15, 2017

(Presenting joint work with Kasper Halbach Christensen)

"A Gröbner basis approach for counting rational places in algebraic function fields."

5. **Contributed talk**
Secrets
 Technical University of Denmark, Lyngby, Denmark, November 14, 2016
 “Improved constructions of nested code pairs.”
6. **Workshop organization**
 (in collaboration with Peter Beelen)
Secrets
 Technical University of Denmark, Lyngby, Denmark, November 14, 2016.
7. **Inaugural Lecture**
 Department of Mathematical Sciences, Aalborg University, August 30, 2016 “Bounding the number of affine roots – with applications in reliable and secure communication”
8. **Invited talk**
On the Algebraic and Geometric Classifications of Projective Varieties University of Messina, Italy, June 20–24, 2016
 “Bounding the number of affine roots using algebraic methods.”
9. **Invited talk**
 Seminar at Jaume I University, Spain, June 3, 2016
 “Bounding the number of affine roots using algebraic methods.”
10. **Invited research stay**
 University Jaume I, Castellon, Spain, May 23 – June 3, 2016
11. **Workshop participation**
Symposium on the 60th birthday of Ivan Damgård Aarhus University, Denmark, April 1-2, 2016
12. **Invited talk**
Information Meeting for The Danish National Research Foundation at Aalborg University
 Aalborg University, Denmark, February 3, 2016
 With Tom Høholdt
 “Presentation of Danish-Chinese Center for Applications of Algebraic Geometry in Coding Theory and Cryptography”
13. **Workshop participation**
DARNEC’15 Design and Application of Random Network Codes
 Istanbul Technical University, Turkey, November 4–6, 2015
14. **Workshop participation**
The Seventh International Workshop on Coding and Cryptography (WCC-2015)
 Paris, France, April 13–17, 2015.
15. **Contributed talk**
Workshop on Applications of Algebraic Geometry in Secret Sharing and Coding Theory
 Aalborg University, Denmark, June 30, 2014
 (Presenting joint work with Stefano Martin, Ryutaroh Matsumoto, Diego Ruano, and

- Yuan Luo)
 “Ramp secret sharing schemes from one-point AG codes.”
16. **Workshop organization**
Workshop on Applications of Algebraic Geometry in Secret Sharing and Coding Theory
 Aalborg University, Denmark, June 30, 2014.
 17. **Contributed talk**
IEEE Information Theory Workshop (ITW 2014)
 Hobart, Tasmania, Australia, November 2–5, 2014
 (presentation of joint work with Stefano Martin, Ryutaroh Matsumoto, Diego Ruano and Yuan Luo)
 “Relative generalized Hamming weights of one-point algebraic geometric codes.”
 18. **Workshop participation**
4th International Castle Meeting on Coding Theory and Applications
 Castle of Palmela, Portugal, September 14–20, 2014
 19. **Workshop participation**
NetCod 2014 – International Symposium on Network Coding
 Aalborg University, Denmark, June 27–28. 2014
 20. **Invited talk**
International Conference on Algebraic Geometry and Coding Theory
 Indian Institute of Technology, Bombay, Mumbai, India
 December 2–6, 2013
 “Affine variety codes are better than their reputation.”
 21. **Invited talk**
Special Semester on Applications of Algebra and Number Theory
Algebraic Curves over Finite Fields
 RICAM, Linz, Austria, November 11–15, 2013
 “Affine variety codes are better than their reputation.”
 22. **Workshop participation**
COST Conference
 Ghent University, Belgium, September 18–20 2013
 23. **Workshop organization**
 (in collaboration with Diego Ruano)
Meeting in Danish-Chinese Center for Applications of Algebraic Geometry in Coding Theory and Cryptography
 Klitgården, Skagen, Denmark, July 28–31 2013
 24. **Invited research stay**
 East China Normal University, Shanghai, China, April ??–?? 2013
 25. **Invited talk**
Meeting in Danish-Chinese Center for Applications of Algebraic Geometry in Coding Theory and Cryptography
 East China Normal University, Shanghai, China, April ??–?? 2013
 “The Feng-Rao bounds for RGHW with applications in Secret Sharing”

26. **Invited talk**
Zürich COST Meeting
 University of Zürich, Switzerland, June 20–21, 2013
 “On Success Probability in Random Network Coding (A review).”
27. **Invited talk**
Mathematics of Information-Theoretic Cryptography
 Lorenz Center, Leiden, The Netherlands, May 21–25 , 2013
 “Further improvements on the Feng-Rao bound for dual codes.”
28. **Invited talk**
KIAS International Conference on Coding Theory and Applications
 KIAS, Seoul, Korea, November 15–17, 2012
 “The Feng-Rao bounds.”
29. **Workshop participation**
Trends in Coding Theory
 Ascona, Switzerland, October 28 – November 2, 2012
30. **Invited talk**
Meeting in Danish-Chinese Center for Applications of Algebraic Geometry in Coding Theory and Cryptography
 Technical University of Denmark, August 15–16 2012
 (presentaion of joint work with Ryutaroh Matsumoto and Diego Ruano)
 “Feng-Rao decoding of primary codes.”
31. **Invited talk**
Meeting in Danish-Chinese Center for Applications of Algebraic Geometry in Coding Theory and Cryptography
 East China Normal University, May 19–26 2012
 “One-point AG-codes from an affine-variety point of view.”
32. **Invited research stay**
 East China Normal University, Shanghai, China, May 19–26 , 2012.
33. **Invited talk**
 Basel University, Switzerland, March 19, 2012
 “ n applications of the footprint bound ($n \geq 3$).”
34. **Invited research stay**
 Basel University, Switzerland
 March 16 – 23, 2012.
35. **Invited talk**
Combinatorial, Algebraic and Algorithmic Aspects of Coding Theory
Aspects of Coding Theory
 EPFL, Lausanne, Switzerland, July 25, 2011
 (Presenting joint with Casper Thomsen)
 “Weighted Reed-Muller codes revisited.”
36. **Workshop participation**
The Seventh International Workshop on Coding and Cryptography (WCC-2011)
 Paris, France, April 11–15, 2011.

37. **Invited lectures**
3rd Soria Summer School in Computational Mathematics
 Soria, Spain
 July 12–16, 2010 Six hours lecture “Network Coding.”
38. **Workshop participation**
12th IMA International Conference on Cryptography and Coding
 Cirencester, England, December 15–17, 2009
39. **Invited workshop participation**
Workshop on Sequences, Codes and Curves
 Antalya, Turkey, September 25–29, 2009
40. **Workshop participation**
NetCod 2009 – International Symposium on Network Coding
 EPFL, Lausanne, Switzerland, June 15–16 2009
41. **PhD school organization and lectures**
 (in collaboration with Max Sala)
 Summer Doctoral School: *Gröbner Bases, Geometric Codes, and Order Domains*
 University of Trento, Italy, June 8–13, 2009
42. **Invited talk**
4th Interdisciplinary Seminar on Applied Mathematics Aalborg University, Denmark,
 April 23, 2009
 “Random Network Coding and Error-Erasur Correction in Networks”
43. **Invited lectures**
International School and Conference on Coding Theory
 Centro de Investigación en Matemáticas (CIMAT), Guanajuato, Mexico, November
 28–December 4, 2008
 Five hours lecture: “Order domain codes and affine variety codes.”
44. **Invited talk**
Applications of Computer Algebra (ACA)
 RISC, Castle of Hagenberg, Austria, July 27–30, 2008
 “On the second weight of generalized Reed-Muller codes.”
45. **Workshop participation**
International Workshop on the Arithmetic of Finite Fields WAIFI 08
 University of Siena, Italy
 July 6–9, 2008.
46. **Session organization**
Session: Coding Theory
European Mathematical Society, Joint Mathematical Weekend
 University of Copenhagen, February 29 – March 2, 2008
47. **Invited talk**
Thematic Seminar on Algebraic Geometry, Coding and Computing
 University of Valladolid, Segovia, Spain, October 8–10, 2007
 “Weierstrass semigroups and the number of rational places.”

48. **Contributed talk**
 Mini-workshop *Error-correcting codes and network coding*
 Aalborg University, Denmark, September 19, 2007
 “Weierstrass semigroups and the number of rational places.”
49. **Workshop organization**
 Mini-workshop *Error-correcting codes and network coding*
 Aalborg University, Denmark, September 19, 2007
50. **Invited talk**
2nd Interdisciplinary Seminar on Applied Mathematics
 Aalborg University, Denmark, October 25, 2006
 “Affine Variety Codes”
51. **Workshop participation**
IMA workshop: Complexity, Coding, and Communications
 University of Minnesota, USA, April 16–20, 2007.
52. **Invited talk**
Seminar
 Tokyo Institute of Technology, Japan, August 8, 2006
 “Generalizations of the Reed-Solomon Codes Via Gröbner Basis Theory.”
53. **Invited research stay**
 Tokyo Institute of Technology, Japan, Two weeks, August, 2006
54. **Invited talk**
KIAS-RIMS joint workshop on Computer Algebra
 Kyoto, Japan, July 31 – August 4, 2006
 “Algebraic Geometry Codes in a Pure Gröbner Basis Theoretical Setting.”
55. **Invited poster**
Special Semester on Gröbner Bases and Related Methods 2006
Workshop D1: Gröbner Bases in Cryptography, Coding Theory, and Algebraic Combinatorics
 Radon Institute for Computational and Applied Mathematics
 Linz, Austria, May 1–6, 2006
 “Two applications of the footprint bound – estimation of generalized Hamming weights”
56. **Invited talk**
Special Semester on Gröbner Bases and Related Methods 2006
Workshop D1: Gröbner Bases in Cryptography, Coding Theory, and Algebraic Combinatorics
 Radon Institute for Computational and Applied Mathematics
 Linz, Austria, May 1–6, 2006
 “Order Domain Codes”
57. **Contributed talk**
Applied Algebra, Algebraic Algorithms and Error-Correcting Codes (AAECC-16)
 Las Vegas, NV, USA, February 20–24, 2006
 (Presenting joint work with Christian Thommesen)
 “On the Feng-Rao bound for generalized Hamming weights”

58. **Invited talk**
Arithmetic, Geometry, Cryptography and Coding Theory (AGCT-10)
 Centre International de Recontres Mathématiques (CIRM)
 Luminy (Marseile), France, September 26–30, 2005
 “On the minimum distance of one-point geometric Goppa codes.”
59. **Contributed talk**
8th Nordic Combinatorial Conference
 Aalborg University, Denmark, October 20–22, 2004
 ”On some Gröbner basis theoretical applications.”
60. **Conference organization**
 (joint with L. D. Andersen)
8th Nordic Combinatorial Conference
 Aalborg University, Denmark, October 20–22, 2004
61. **Workshop participation**
IEEE International Symposium on Information Theory (ISIT-2004)
 Chicago Downtown Marriot, Chicago, Illinois, USA, June 27–July 2, 2004. “Codes from Order Domains.”
62. **Invited talk**
Koderungstheorie
 Mathmatisches Forschungsinstitut Oberwolfach, Oberwolfach Germany, December 7–13, 2003
 “On the Missing Evaluation Codes from Order Domain Theory.”
63. **Invited talk**
Arithmetic, Geometry, Cryptography and Coding Theory (AGCT-9)
 Centre International de Recontres Mathématiques (CIRM), Luminy (Marseille), France, May 18–23, 2003
 “Codes from order domains.”
64. **Contributed talk**
IEEE International Symposium on Information Thoery (ISIT-2002)
 Palais de Beaulieu, Lausanne, Switzerland, June 30– July 5, 2002
 “A Class of Gröbner Basis Theoretically Based Evaluation Codes.”
65. **Contributed talk**
Applied Algebra, Algebraic Algorithms and Error-Correcting Codes (AAECC-14)
 Melbourne, Australia, November 26–30, 2001
 (Presenting joint work with Tom Høholdt)
 “On hyperbolic codes”
66. **Contributed talk**
IEEE International Symposium on Information Theory (ISIT-2001)
 Omni Shoreham Hotel, Washington, D.C., USA, June 24–29, 2001
67. **Invited research stay**
 Technical University of Denmark, 1 week 2000
68. **Invited talk**
Combinatorial Theory Seminar

Technical University of Eindhoven, The Netherlands, February 17, 1999
“Evaluation Codes from order domains.”

69. **Invited talk**

Torsdagsseminar

Department of Mathematical Sciences, Aalborg University, Denmark, May 20, 1999
“Evaluation Codes and Order Domains.”

70. **Invited talk**

Coding Theory Days

DAIMI, Aarhus University, Denmark, August 18–19, 1999
“Evaluation Codes and Order Domains.”

71. **Contributed talk**

Winter School on Coding and Information Theory 1998 (IEEE)

Ebeltoft, Denmark, December 13–16, 1998 “Evaluation Codes and Order Domains.”

72. **Invited research stay**

Technical University of Eindhoven, The Netherlands, April–July, 1998.

73. **Contributed talk**

Winter School on Coding and Information Theory 1996 (IEEE) Mølle, Sweden, December 15–18, 1996

“Presentation of PhD project.”

Popolarization

1. **Leading part**

The film project: “10 danske matematikere – 10 matematiske fortllinger”

Publishing house: Lindhardt og Ringhof Uddannelse

Producer: Bjørn Grøn, Camera: David Binzer, 2016

“Olav Geil: Fejlkorrigerende koder”

2. **Invited lecture**

Regionalmøde for matematiklærere ved gymnasiale uddannelser

Aalborg Studenter Kursus, Denmark, February 3, 2016

“Hvad gør man når høstakker er for stor?”

3. **Invited lecture**

Ungdommens Naturvidenskabelige Forening

Aalborg, Denmark, October 14, 2014

“Hvis tale er sølv, så er mange slags tal guld.”

4. **Invited lecture**

Møde for Matematiklærere i Nordjyske Region

Hasseris Gymnasium, Aalborg, Denmark, November 11, 2008

“Fejlkorrigerende koder og secret sharing (samt kryptografi og netværkdkodning)”

5. Invited lecture

Elektronik og IT-Gruppen, Ingeniørforeningen i Danmark

Aalborg, Denmark, April 24, 2008

“Moderne kryptografi.”

6. Invited lecture

Møde for Matematiklærere i Viborg og Ringkøbing amter

Viborg Gymnasium, Denmark, November 7, 2006

“Fejlkorrigerende koder, secret sharing (og kryptografi)”

7. Invited lecture

Møde for Matematikundervisere p Seminarierne

Brogården, Middelfart, Denmark, September 9, 2003

“Diskret Matematik.”

8. Invited lecture

Ungdommens Naturvidenskabelige Forening

Aalborg, Denmark, February 6, 2001

“Fejlkorrigerende koder.”

9. Several invited lectures

Dronninglund Gymnasium (2002, 2004), Hjørring HTX (2003), Randers Statsskole (2003), Århus Katedralskole (2003, 2004), Nørre Sundby Gymnasium (2007), Vesthimmerlands Gymnasium (visiting AAU) (2007), Frederikshavn HTX (2007)

“Kodningsteori”
